SWANSEA TAS 7190

Dear Robyn,

Re: Meredith River Pedestrian/Cycling Bridge

Thank you for the opportunity to provide a letter of support for the Meredith River Pedestrian/Cycling Bridge.

Members of the Swansea Chamber of Commerce and Tourism have discussed the project and expressed their unanimous support.

On a much smaller scale, the foot/cycle bridge over Saltwater Creek is an integral part of community infrastructure that provides residents and visitors on the southern side of Swansea the opportunity, and incentive, to walk or ride to 'town' rather than drive via the Tasman Highway. The Saltwater Creek bridge contributes significantly toward the social fabric of Swansea, not only as a pathway, but also by bringing people together with the opportunity to interact in a way that is simply not possible when travelling by vehicle.

A pedestrian/cycling bridge over the Meredith River would provide the same benefits on a much larger scale and be an asset that residents and visitors would appreciate and enjoy.

The Chamber applauds your Association's initiative in pursuing this project and we wish you every success.

Yours Sincerely

Bob Moore  
President
